ABOUT THE COLLEGE

Atharva College of Engineering (ACE) - is NAAC Accredited with A+ grade, an ISO Certified Institute. Its is approved by AICTE, recognized by DTE & affiliated to University of Mumbai. Atharva College of Engineering stands as a beacon of academic excellence, seamlessly merging theoretical knowledge with practical applications with right blend of Technology, Innovative and Research. Atharva is renowned for its commitment to fostering innovation, the college boasts state-of-the-art research facilities and innovative labs that provide students with a conducive environment to explore groundbreaking ideas. The institution's emphasis on research is evident through its robust programs encouraging students to delve into diverse fields. Atharva College of Engineering takes pride in nurturing an entrepreneurial spirit, supporting budding startups, and instilling a culture of creativity among its students. With a dynamic ecosystem that encourages experimentation and hands-on learning, the college is shaping the next generation of engineers and innovators poised to make significant contributions to the technological landscape.

ABOUT THE CONFERENCE

International Conference on Science, Technology, Engineering, and Mathematics for Sustainable Development (ICSTEMSD) 2025 with the theme "Smart Mobility, Technology, and Sustainability" aims to bring together experts, researchers, academicians, innovators, industry experts and policy makers from diverse fields to discuss the recent breakthroughs and leading-edge advancements for addressing global challenges. The conference will focus on the integration of smart mobility solutions and sustainable practices covering topics like: Smart Mobility which includes Autonomous vehicles, electric transportation, intelligent transportation systems (ITS), and mobility-as-a-service (MaaS), Technology and Innovation which includes Emerging technologies that support smart cities, IoT, big data, and AI applications for urban mobility and sustainable development and Sustainability which includes Green energy solutions, sustainable infrastructure, and eco-friendly practices in transportation and technology sectors. This conference encourages alliance across disciplines, tackles challenges in mobility and promotes sustainable practices through Next-gen technology and adaptive systems in transportation and urban sustainability.

TRACKS (but not limited to)

Track 1: Science, Technology and Society
Track 2: Advances in Power and Energy Systems
Track 3: Innovations in Communication and Signal Processing
Track 4: Trends in Computing and Artificial Intelligence
Track 5: Data and Digital Transformation
Track 6: Embedded Electronics and Computing Systems
