

INTERNATIONAL CONFERENCE ON SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS FOR SUSTAINABLE DEVELOPMENT (ICSTEMSD 2025) - SEASON 3

Theme: Smart Mobility, Technology and Sustainability (Hybrid Mode) In Collaboration with (UGC/WoS approved Journal)

ABOUT THE CONFERENCE

International Conference on Science, Technology, Engineering, and Mathematics for Sustainable Development (ICSTEMSD) 2025 with the theme "Smart Mobility, Technology, and Sustainability" aims to bring together experts, researchers, academicians, innovators, industry experts and policy makers from diverse fields to discuss the recent breakthroughs and leading-edge advancements for addressing global challenges. The conference will focus on the integration of smart mobility solutions and sustainable practices covering topics like: Smart Mobility which includes Autonomous vehicles, electric transportation, intelligent transportation systems (ITS), and mobility-as-a-service (MaaS), Technology and Innovation which includes Emerging technologies that support smart cities, IoT, big data, and AI applications for urban mobility and sustainable development and Sustainability which includes Green energy solutions, sustainable infrastructure, and eco-friendly practices in transportation and technology sectors. This conference encourages alliance across disciplines, tackles challenges in mobility and promotes sustainable practices through Next-gen technology and adaptive systems in transportation and urban sustainability.
